The curriculum outlines how technical and tactical concepts can be applied in the development of players. The focus is placed on the basic methods of coaching, teaching proper technique, the theory and application of offensive and defensive tactics and understanding team management. There is no testing in the Regional Diploma

The Advanced Regional Diploma is a 21-hour course designed as a supplement to the Regional Diploma, adding eight hours devoted to technical and tactical uses of small-sided games, the study of systems of play and a practice teaching component.
